Dear Mr. Thomas:

Re: Notification of Incomplete Reclamation Contract and Plan,
Aragonite Mine and Mill, M/045/031, Tooele County, Utah

Please find enclosed, the original copy of the Aragonite Mine and Mill Reclamation Contract. The Contract is missing some information. Please fill in the blanks next to the Operator's Officers section. Also, the information above the Notary Public's signature needs to be completed. The information needs to be completed and returned to this office by June 5, 1991.

The Division has not received the *complete* millsite reclamation plan for the area outside of the 5-acre operational area, which was due May 10, 1991. This is a violation of the terms/conditions of the April 22, 1991 Board Order. To avoid further Board action or penalty, you are advised to *immediately* submit the complete reclamation plan for this area. We also anticipate receipt of a *complete* reclamation plan for the Aragonite minesite, no later than June 30, 1991. Thomas American Stone is expected to comply with all of the terms and conditions of the April 22, 1991 Board Order. Failure to do so may result in a Board directed immediate suspension of operations and commencement of reclamation of the Aragonite mine and millsite areas.

Thank you for your attention to these deficiencies and upcoming deadlines.

Sincerely,

D. Wayne Hedberg
